PROJECTS

Personal Portfolio Website

Description: Create a visually appealing portfolio to showcase your projects, skills, and experience.

Key Features:

- Interactive sections for About, Projects, Resume, and Contact.
- Dynamic routing using React Router
- Responsive design with Bootstrap
- Email form with EmailJS or a backend API.

E-commerce Website | React.js

- Developed a fully functional e-commerce platform using React.js for the frontend and Bootstrap for styling.
- Implemented features like product browsing, filtering, and cart functionality to enhance user experience.
- Utilized state management (e.g., Redux/Context API) to manage application data flow efficiently.
- Integrated REST APIs for dynamic product listings and user data management.
- Optimized website performance, achieving faster load times and a responsive design for all screen sizes.

Weather App

Description: A simple app to fetch and display current weather and forecasts.

Key Features:

- Used APIs like OpenWeatherMap.
- Dynamic weather icons based on conditions.
- Search functionality for cities.
- Responsive design with an intuitive UI.
